Experience

Whitespace   2018 - 2019
UX Designer & web developer

- Inspired and improved the company's design process to include more time to design sprints in each project leading to more happy customers.
- Shaped client ideas into visual design components and transformed them into CMS platform based websites following Web Content Accessibility Guidelines (WCAG).

Yolean   2016 - 2018
UX Designer & web developer

- I transformed a developer driven startup into a design thinking company.
- Bridged the gap between user needs and the development team and shaped user needs into user friendly web solutions.
- Supervised ux master thesis project.

Master thesis   2016
Interaction Designer

- Designed a user study that revealed new insights for future designers and engineers that want to design interactions for large vertical touch displays.
- Co-authored a scientific research paper that was published at the ixd conference INTERACT 2017 in Mumbai, India.

Chalmers Teknologkonsulter   2014 - 2015
App developer & designer

- I helped clients transform their ideas into mobile and web applications.
- Designed and developed an award winning MVP app for both iOS and Android in just 2 weeks.

Bachelor thesis   2014
App developer

- Discovered the costs and benefits of early cross-platform app development together with Alten in Gothenburg.
